CROWNPOINT SERVICE UNIT COVID-19 VACCINE CLINIC SCHEDULE

Crownpoint, New Mexico --- COVID-19 vaccinations are available at the Crownpoint Service Unit (CPSU) locations listed below. The clinics covered under the CPSU are: Crownpoint Healthcare Facility, Thoreau Health Clinic and Pueblo Pintado Health Clinic.

All COVID-19 Vaccinations are voluntary. To review frequently asked questions about the COVID-19 vaccination, visit: www.cdc.gov/coronavirus/2019-ncov/vaccines/faq.html

It is recommended not to have the COVID-19 vaccine within two weeks of other vaccines. Due to the severe health risks associated with COVID-19 and the fact that reinfection with COVID-19 is possible, individuals who have previously tested positive for COVID-19 are able to receive the vaccine after 14 days of being free of COVID symptoms. Additionally, current evidence suggests that reinfection with the virus that causes COVID-19 is uncommon in the 90 days after initial infection. Therefore, people with a recent infection may delay vaccination until the end of that 90-day period if desired.
